Instruction

Before beginning, please note that:

1- All the files in this Zip folder must be located together.

2- You can add or remove URLs in the "Social Media accounts.xls" file.

3- You will find the results in the "Book1.xls" file if you ask for all the URLs at the same time.

To use the automatic data extraction:

1- Open the "final.exe" file.

2- Type the number according to your needs (e.g., Type 3 for Facebook).

3- Press Enter if you wish to get the results for all the URLs in the "Social Media accounts.xls" file, or simply copy and paste your desired URL.

*Please note that if you choose to get all results, it may take more than one hour, and you must wait to receive this message: "Do you want to close the program (Y/n)?" Otherwise, it will not complete the list and will miss some results.
